"Karen is such a professional, very knowledgeable, has a great sense of humor, and keeps the audience engaged and interested! I didn't want her presentation to stop! It's easy to see that she loves gardening and people."

- Janet, Snohomish, WA

"Karen is a true professional who is able to adapt her talks to varied - and very different - regions of the country. She was my first out-of-state speaker for my Garden Spark series, and I was completely satisfied with how she tailored her talk to the interests of our group and the reality of gardening in Texas, compared with her home base in the Pacific NW. She is an engaging speaker with a great sense of humor!"

- Pam, Austin, TX
